

Dear Chamber Member,

The Jefferson County Chamber of Commerce (JCCC) is proud to offer our members a new resource! Through our partnership with Jefferson County Development Corporation, we can now provide you with legislative updates through an alert program called **Impact**. These alerts are sent to subscribers via e-mail and include legislative information and items of concern on both the state and federal levels from a variety of sources, including regular updates from the Illinois State Chamber of Commerce. If you are interested in receiving legislative alerts and informational e-mails regarding current legislation from a small business perspective sign up for **Impact** now by contacting the Chamber office at 618-242-5725 or e-mail Executive Director Brandon Bullard at chamberexec@mvn.net.

Legislation in Springfield and Washington, D.C. has a profound effect on small business. It is important, now more than ever for you as a businessperson to be aware of what is happening and to respond in a timely way when you choose. Making information available about legislative issues that could affect small business is an important part of what any Chamber of Commerce does. JCCC respects your opinion, understands that political viewpoints vary from member to member, and is committed to providing comprehensive information; we are offering you this option. If you want legislative alerts, sign up for **Impact** today! Comments? Send them to chamberfeedback@mvn.net .

Brandon Bullard

Executive Director
